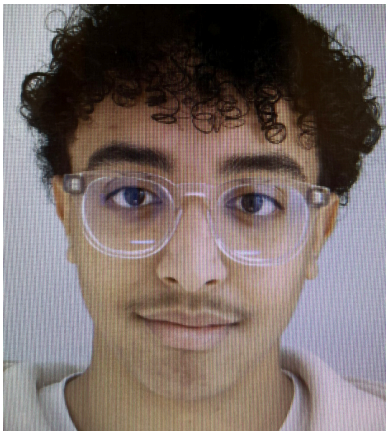
@Islam Mehenni

WEB DEVELOPER

Computer Science student at a University Institute of Technology (IUT), highly motivated and with a strong technical foundation. I am committed to specializing in cybersecurity and autonomy to consistently learn and progress through hands-on projects.



EDUCATION

B.U.T. in Computer Science (Development Track) | IUT de Reims (URCA) | Sept. 2024 – Present

- **FOCUS: C++ PROGRAMMING, SYSTEMS ARCHITECTURE.**
- **STATUS: FIRST YEAR SUCCESSFULLY COMPLETED.**

High School Diploma (Baccalauréat) | Lycée Marc Chagall | 2021 – 2024

- **SPECIALIZATIONS: COMPUTER SCIENCE (NSI) & ECONOMIC AND SOCIAL SCIENCES (SES).**

LANGUAGE

- French (Native)
- Espagnole (Native)
- Anglais (B2)
- Arabe (B2)

TECHNICAL SKILLS

FRAMEWORK

- Symfony
- Swift UI

OTHERS

- GIT
- Bash
- PHPMyAdmin

OFFICE AUTOMATION

- Pack Office
- Windows
- Linux

IT LANGUAGE

- Php
- Python
- SQL
- C++
- HTML
- CSS

COMPUTER PROGRAMS

- VSC
- Oracle
- PHPStorm
- QTCreator
- PyCharm

DETAILED PROJECTS & ACHIEVEMENTS

PYTHON VIDEO GAME

Bubble Survivor

- Logic & Development: Developed a terminal-based survival game using Python within a strict two-week sprint, focusing on object-oriented programming (OOP) principles and game loop logic.(PyGame)
- Recognition: Earned 2nd Place in the Marne Departmental Competition (Coupe NSI), recognized for code efficiency, gameplay mechanics, and creative problem-solving.
- Algorithm Design: Implemented custom algorithms for collision detection and score management in a text-based environment.

PERSONAL ONLINE PORTFOLIO

PORTFOLIO

- Design & Development: Built a responsive website using React.js, HTML5, and CSS3 for a smooth user experience.
- Deployment: Set up the hosting and managed the custom domain: islam-mehenni-meghraoui.fr.
- Performance: Optimized the site for fast loading speeds and ensured it works perfectly on all browsers and mobile devices.
- Project Showcase: Created a dynamic gallery to display my technical skills and projects to future employers.

PROFESSIONAL CONFERENCE MANAGEMENT

Conférence par un professionnel

- Agile Leadership: Led a student team using Agile Scrum to meet all deadlines and ensure high-quality results.
- Client Communication: Acted as the main contact for professional clients, turning their needs into technical plans and a formal Project Charter.
- Team Coordination: Organized daily sync meetings and resolved team conflicts to ensure the conference was delivered successfully.
- Methodology: Managed the full project lifecycle, from initial requirements to the final event.

OLYMPIC GAMES DATABASE MANAGEMENT

Data Architect

- Development: Created a terminal-based survival game in just 2 weeks using Python.
- Technical Focus: Used Object-Oriented Programming (OOP) to build the game logic, including custom scoring and collision detection.
- Award Winner: Won 2nd Place in the Marne Departmental Competition (Coupe NSI) for clean code and creative gameplay.
- Problem Solving: Designed the entire game loop and handled all technical challenges under a tight deadline.
